**RE: Continuation of Monitored Natural Attenuation Letter
Dry Cleaning Facilities Area OU-003, Fort Riley, Kansas,**

Dear Mr. Hynek:

The Kansas Department of Health and Environment/Bureau of Environmental Remediation (KDHE/BER) has reviewed the referenced document, received on March 21, 2016, via email and approves the continuation of monitored natural attenuation. However, KDHE/BER requests that monitoring be continued beyond 2018 and until it is demonstrated that all contaminants of concern are below the applicable maximum contaminant levels. Should you have any questions, please contact me by phone at 785-291-3245 or email at kpeterson@kdheks.gov.

Sincerely,

Kelly Peterson
Environmental Specialist, Remedial Section
Bureau of Environmental Remediation
