

**Public Notice**  
**for Marshall Army Airfield EE/CA**

16-Jan-1998

---

**Public Notices**

**31**

**PUBLIC NOTICE  
DEPARTMENT OF THE ARMY  
HEADQUARTERS, FORT RILEY  
FORT RILEY, KANSAS 66442-5000  
NOTICE OF AVAILABILITY  
TO ALL INTERESTED AGENCIES,  
INDIVIDUALS AND PUBLIC  
GROUPS**

Pursuant to the Comprehensive Environmental Response and Liability Act (CERCLA or Superfund) as amended by the Superfund Amendments and Reauthorization Act (SARA) and the National Contingency Plan, 40 CFR Part 300.820, Fort Riley announces the publication of an Engineering Evaluation/Cost Analysis (EE/CA) document for a proposed "Removal Action".

An EE/CA contains a description of the site, a discussion of the contaminants found at the site, the removal action alternatives for the site, and a relative evaluation of costs of various alternatives.

The United States Department of the Army has prepared an EE/CA report for the Former Fire Training Area-Marshall Army Airfield (FFTA-MAAF) located at the northern end of Marshall Army Airfield, and adjacent off-post properties. The EE/CA report addresses potential risks to current groundwater users and presents several options which include replacement water supply wells, alternate water supply from other public or federal water supply systems, and well head treatment.

The National Contingency Plan requires a 30-day public review period after the publication of Notice of Availability. The EE/CA report will be available for viewing after 20 January 1998 at the Directorate of Environment and Safety, 407 Pershing Court, Fort Riley, Kansas, telephone (785) 239-8619. Copies will also be available for viewing at the Dorothy Bramlage Public Library, Junction City, Kansas, the Manhattan Public Library, Manhattan, Kansas and the Clay Center Carnegie Library, Clay Center, Kansas. Comments will be accepted through 21 February 1998.
