Dear Ruth,

I'm sending back to you here
the "simple" mutant strains Parag
mailed to me as well as you.

I think you should grow them
up and put them into silicafel and
fill out record sheets from the infor-
mation provided (I am enclosing

the relevant part of his stock list).

They are all duplication strains,
the original ^(#511) and NG induced mutants,
511 A being "pop B13", an allele of urs B

therefore urs B413 (400 to be added to all
Parag urs-isolation Nos). I cannot possibly
fill out forms for him, but if I
