Mr. Craig Wilson
Fungal Genetics Stock Center
Department of Microbiology
University of Kansas Medical Center
Kansas City, KS 66103

Dear Mr. Wilson

I heard that you never got the A825, A826, A827 from Dr. Hyen-Sam Kang. Actually I sent those strains from Montreal. Anyway, I am sending A825, 826, & 827 strains with deposit sheets to you from UCLA. You also find silical gels of those strains.

If you have problem with those strains, please let me know.

I will be at UCLA up to the end of August. My UCLA E-mail address is

Chae@uclal1.chem.ucla.edu

Would you put my address of Korea on the FGN mailing list?

Thanks

Suhn-Kee Chae
