Kansas City, KS 66103

Dear Dr. Wilson,

Enclosed you will find a set of mutants we would like to deposit in the FGSC. These mutants were isolated by using UV-light. They are suppressors of the conditional heat sensitive mutation *mudA1* (for nuclear distribution) and they are called *sna* (for suppressors of the *mudA* mutation) mutants..

I am moving back to my country (enclosed you will see my address) after tomorrow. If there is any further problem or question, please feel free to contact me.

Thanking you in advance, we remain,

Sincerely yours,

A handwritten signature in black ink, appearing to read "Gustavo H. Goldman".

Gustavo H. Goldman, Ph.D.
