

5. aflR mutant

Yu J, Butchko R A E, Fernandes M, Keller N P, Leonard T, Adams T (1996) Conservation of structure and function of the aflatoxin regulatory gene *aflR* from *Aspergillus nidulans* and *A. flavus*. *Curr Gene* 29:549-555.

I do not have papers describing the other mutations although we will shortly be submitting on the stcB, stcF and stcW mutant. We have just submitted a paper to Genetics on the stcE mutant.

Sincerely,

Nancy Keller
Associate Professor
