

submitted to Mycologia in a few weeks.

COMMENTS (special growth requirements, aberrations, heterokaryon compatibility, special uses of strain, etc.)

~~We don't have a strain name for this isolate (outside of our own nickname).~~ We were planning to call it by its FGSC number in the manuscript.

Some items may be listed under the wrong heading, but we hope all the information needed is on this form. Please contact Dan Panaccione (danpan@wvu.edu) if more information needed.

(use back of page if necessary)
