Good afternoon,

I will be sending some strains of *A. nidulans* today for deposit at FGSC from Berl Oakley Lab's lab at KU.

I will include the deposit slip, strain list, and first page of the article in the package; attached here you will find the complete article, complete supplemental materials along with the strain list and deposit slip.

Please let me know if you have any questions and/or problems with the strains when they arrive.

Thanks,

Liz Oakley
