Comments: add extra adenine to histophila medium

Linkage Group Y for stock responds well to histidine + adenine; not to single supplements. 2/1/62

Used by Bob Gorda for tetrad work.

"Warning!! may also contain ad-7." ad-7 (MN227) was recovered among progeny. See D. E.A. Catchside, Aust. J. Biol. Sci. 21: p563 (1974)
