

DEPARTMENT OF BIOLOGICAL SCIENCES

18 Feb 83

Dear Ray:

Apparently Bill goofed back in 1961 by using the same FgSL No. for two different stocks: #482 was assigned first to an arg-8 strain, then to L-tuft. When I requested tuft last May, I received arg-8 (= pro-3) instead.

I'll send the enclosed to Ruth when I next write her. She may want your guidance on how to proceed.

Best regards,

HUMBOLDT STATE UNIVERSITY

David
