Dear Ed:

Just ~~ch~~oked at the m.t. test I ran on FGSC #687 and #739 both listed as a, and find my cross results are the same as yours. Hence, am changing the m.t. of these ~~two~~ from a to A as you suggested. Many thanks for alerting us of the ~~discrepancy~~..

Getting geared for my trip to Brno ~~3~~, Czechoslovakia come mid-July. The World Federation for Culture Collections is holding the IVth International Conference for Culture Collections at this time. Since I am on the steering committee and will be on the Board for the next conference, I am getting my trip funded. I will be part of the teaching staff for the Workshop which precedes the conference.

Everyone is well here. Trust this note finds you as well. Gather you will be at Stanford for the summer again. Hope to stop and visit before or after the meeting in Brno.

Take care.

Cheers!

William N. Ogata  
curator - FGSC
