

Prof. A. Srb in a letter of 16/12/63

Says partial matings with N "cassa"  
Phillipine strain 3-723-3A and with

laboratory isolate of N cassa 749. All other  
crosses with N setipila, N untemecha etc  
not fertile

Says unusual to find fertility of high order  
both with Phillipine strain and N. cassa

*[Faint, mostly illegible text and bleed-through from the reverse side of the page. Some words like "DATE" and "NAME" are visible.]*
