Referring to your letter of April 1, 1970,
we inform you of the dispatch by airmail of the
culture CBS 180.27 Neurospora tetrasperma Shear &
B.O. Dodge = IMI 89.300, received from Shear, 1927.

Only once we received Phytophthora vesicula,
but the subcultures failed. To our further
repeated inquiries we got no response!

Yours truly,

M.A.A. Schipper
