I don't know if The Book of Tempeh is in the bookstores yet. We have a free copy because the authors consulted David and Barbara. However, I don't think the authors told David or Barbara that they were going to recommend FGSC as a source of starter cultures.

It's possible that Ray has already discussed this with Ho and has come to a decision. But I thought I should write in case he was unaware of the problem.

Best wishes,

Dot
