

Best regards - hope I see you after we
get to Calif. Best to Ray

Howard

Bill:

After a culture reported trace
found last year. I thought you
might have it.
Unfortunately, I have not checked it
out, but it has been the from same source
of stock before. The nutritional value
can be done as follows:
(a) No protein or mineral (0.0%)
(b) No protein or CRN-HCL (200 mg/l) as
same nitrogen source (0.1%)
(c) Protein treatment or nutrient (0.2%)
