

Handwritten notes at the top of the page, including "Record of Neurospora Culture" and "Fungal Genetics Stock Center".

You can easily isolate the single mutant, *g1-2*, from the back cross.

The single mutant can form protoperithecia on the Westergaard and Mitchell's medium.

Please do not write in this space

YOUR STOCK NUMBER FOR THIS CULTURE _____

ORIGIN OF STOCK _____
(For example - obtained from induced in, from cross with, etc.)

PUBLISHED REFERENCE _____
Murphy, T., and T. Ishikawa (1975) J. Bacteriol.

IF UNPUBLISHED, please indicate strain of origin, mutagen, worker, distinguishing characteristics _____

LINKAGE GROUP (S) & ARM _____; COMMENTS (special growth conditions, operations, heterocyst compatibility, genetic background, complementation group, etc.) _____

YOUR NAME _____
Please do not write below this line

DATE NOV. 77

checked for viability _____

checked for genotype _____

other storage method _____

sent to: _____

name _____

date _____

name _____

date _____

Handwritten in blue ink: "T1" and "T2M37P"

Handwritten in red ink: "M50" circled

Handwritten notes at the bottom of the page, including "Comments: No growth on Westergaard and Mitchell's medium" and "g1-2" written vertically.
