Mrs. Ruth Rimbey
Fungal Genetics Stock Center
Humboldt State University Foundation
Arcata, California 95521
U. S. A.

Dear Mrs. Rimbey:

Thank you for your letter of March 21, 1979, informing me the acceptance and FGSC# of ad mutants which I have sent you.

I am sorry that I made a careless mistake for allele designation on a deposition sheet as you have pointed out; please read as follows:

Wrong designation: Y224M41(E41)

Correct designation: Y224M41(E34)

Therefore, allele designation Y224M41(E41) described on one of deposition sheets should read Y224M41(E34).

Mutagen "BUDR + FUDR" means treatment with a mixture of 5-bromodeoxyuridine and 5-fluorodeoxyuridine.

With my best wishes to you and Mr. Ogata.

Sincerely yours,

Tatsuo Ishikawa

Tatsuo Ishikawa
Professor

also note

Ruth: make change on deys sheet I changed the info in the logphil book (black) in the lab.
