comments on my efforts at the participating in the meeting. Let's efforts in organising it so

with the cultures. I am sending es which we are currently using am sending you some spores from by mischance the strains again d be able to reisolate the mutants

to trace the cultures at the ed them in 1976 when they were

ATCC 32492
ATCC 32493
ATCC 32495

} unlisted in ATCC 76 book

Perhaps they had difficulty in maintaining these stocks and have subsequently lost them.

One thing concerns me about sending the cultures, and that is this: I don't have a USDA Shipping Label for the strains. Will they get through Customs without it? I know the U.S. Customs is a little sticky over the importation of living material so I hope that they get through without too much trouble.

Thanks again for your good wishes, hope to meet again sometime.

Yours sincerely,

Jeff Bond
