Re: acr-7, FGSC ~~426~~ 2314, my #426.

Dear Bill:

In 1973 I deposited acr-7 (P1676) and listed it as in linkage group VIR. We weren't able to confirm VIR linkage, so I wrote you to remove it from the stock list.

We now have acr-7 definitely mapped in III, 14% left of sc. So you can relist it with the correct linkage information.

*Replacement for* FGSC 2315, deposited as acr-7 a, proved to be sensitive and was withdrawn. Here is a replacement for it: acr-7 a, my No. 486.

Sincerely,

*David*

*Thanks for shipments of stocks requested. I haven't been good about acknowledging receipt, but they've come in good shape and are appreciated.*
