DEPARTMENT OF BOTANY

26 October 1981

Mr. Bill Ogata
Curator
Fungal Genetics Stock Center
Humboldt State University
Arcata, California 95521

Dear Bill:

In my teaching note in NN 28, I promised to deposit a kit of strains. They are enclosed. I would like them entered together, if possible, and identified with that article.

		FGSC #
1. 74A-Y112-M15	A, <u>ad-3A</u> ; plus complex inversion.	3916
2. 2-17-814	<u>A</u> , <u>ad-3A</u> ; control	3917
3. 24-6	<u>a</u> , <u>hist-3</u> , <u>nic-2</u> , <u>al-2</u> ; <u>pan-2</u> .	3918

Please accept these strains in lieu of a N.N. subscription, as I'm too lazy to go to the bank and get US dollars.

Yours sincerely,

A.J.F. Griffiths
Associate Professor

AFJG/cps.
Enclosure

November 4, 1981

Dear Tony:

Your above cultures arrived safely and now bear the above FGSC numbers. Would you be so kind as to complete the enclosed deposition sheets, sign them and return them to us, thanks. Should have gotten a set off to you before this so you could have sent them with the cultures.

Cheers,
