GENOTYPE ssu-7 am
(symbol or description) WRU7; am19 mating type

ALLELE DESIGNATION(S) 4319-37; am19
(isolation no.)

I don't think it is this. D. Perkins wrote to me about the strain I sent and the ssu-7 is most likely ^{Seale's} WRU7. So it would be WRU7; am(19)

It is cold-sensitive according to Tom Seale's data - see my letter and the copy of his letter when he sent stock to me. Ribosome biosynthesis normal.
