May 1, 1982.

Dear Ray,

I have got several things done now and am mailing you here or have recently mailed the following items:

1. Note to NNZ: Since I did not hear from you to the contrary I made a final copy of the note to grow with my strains, changing only slightly the draft I mailed to you 2 weeks ago. I'm enclosing a copy here and I am also mailing 2 copies to Peter Russell.

2. List of strains, # 4146 - 4200: I have now finalized this list and am sending you here a copy which replaces the draft I mailed 2 weeks ago. We have now grown and visually checked all strains I brought to you to Athens and also those to send. There are a few replacements and we still are retesting two of them. I shall mail a complete copy typed (without information re origin or replacements) as soon as all is final, i.e. in the middle of next week and also send a copy to Peter Russell. Any change from the enclosed hand written list (and the one I gave in Athens) will be of strains 4000 - 4145.

Postal address: 1205 Avenue Docteur Penfield, Montreal, PQ, Canada H3A 1B1
