Kansas City, Kansas 66103
USA

Dear Craig,

Thank you very much for your letter of December 31 and for sending me the tre mutants which I requested. All the strains arrived in good conditions and behaved properly. For your information, I am giving the activity values of trehalase, assayed using intact ungerminated conidia, as source of enzyme.

Strain	trehalase activity (nmole / min per mg. prot)
FGSC 4509	5.3
FGSC 4511	2.4
FGSC 4512	15.3
FGSC 4513	2.0
FGSC 424 (wild type)	590.0

Again, I am indebted to you and the Fungal Genetics Stock Center for all your generous cooperation with our research. Please accept my best regards.

yours sincerely

Héctor Francisco Terenzi, Ph.D.
