Record of Neurospora Culture

Fungal Genetics Stock Center
Dept. of Microbioloby
Univ. of Kansas Medical Center
Kansas City, KA 66103

FGSC
I _____5399__

I date_____

GENOTYPE Truk MOEN-10
SPECIES: **N. intermedia**   mating type: **a**

I
ALLELE DESIGNATION(S)   I ( )_____
(isolation no.)   I
                                               I
YOUR STOCK NUMBER FOR THIS CULTURE P3287   I ( )_____
                                               I
ORIGIN OF STOCK   Collected by DDP from burned vegeta- I ( )_____
              tion.   2-84   I
                                               I
                                               I
PUBLISHED REFERENCE_____ I ( )_____
                                               I
_____ I ( )_____
                                               I
(data regarding origin, linkage, biochemical   I
characteristics, complementation group, etc.) I ( )_____
                                               I
IF UNPUBLISHED, please indicate strain of origin, I
mutagen, worker, distinguishing characteristics I ( )_____
                                               I
_____ I ( )_____
                                               I
LINKAGE GROUP(S) & ARM_____; COMMENTS (special I
growth conditions, aberrations, heterocaryon   I
compatibility, genetic background, complementation I ( )_____
group, etc.)_____ I
_____ I ( )_____
