March 7, 1999

Dear Dr. McCluskey

I am sending mutagen sensitive *Neurospora* strains which we isolated and characterized before. There is no publication about mus-24 because we are still characterizing mus-24.

If there are any troubles on growth and mutagen sensitivity of these strains, please let me know.

I will also send our DNA plasmids containing some DNA repair genes in a year.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Hirokazu Inoue".
