Subject: strains

Kevin:

My apologies for the mixup on strains. I had a hard time finding these, and looked so hard I found three instead of the intended two. Here are the synonyms:

CD-145, sup3, al, R11A should be discarded

CD-145, sup3 al, R33a is CD-145, 15300; CAL-8 (arg-1, al-2 sup-3)

CD-145, sup3, al, R36A is IC-18 (arg-1, al-2 sup-3)

Best for now,
Cheers, Rowland
