Subject: RE: Contact the FGSC

Hi Kevin:

I have summarized on the 8 standard strains for Cryptococcal MLST and the cultures will be shipped in the second week of Jan. 2009. Right now my assistants are all away for the Holidays. Can I send you the summary sheet and you can assign the FGS stock number so that I can put the number in the manuscript or the numbers can not be assigned until you receive strains?

Many thanks and best wishes,  
June
