

10588-10599 01. Spt. 2010

Dear Kevin,

attached the most recent Lfeact vectors I've made. A few nicely working transformations are attached as well. (Included I should maybe say.)

All the remaining paper work for the disposition will follow soon by e-mail.

The corresponding FGR I've talked about is now submitted to Matt, and hopefully will be online soon. We can discuss the details on the homepage again later.

All the best,

Shir
