Subject: First sets of cleaned-up NCU strains (HygR, not soft)

Dear Kevin,

Michael Neinast, Ying Zhang and Kari Halbig, along with help from summer students, have so far cleaned-up the following knockout strains to be HygR and not soft by crossing back to wild-type:

<u>Genotype</u>	<u>LG</u>	<u>Mating Type</u>
NCU00061	10694 III	A
14140 NCU00061	10695 III	a
1151 33 NCU04076	10696 VI	A
17934 NCU01187	10697 V	a
13980 NCU05683	10698 III	a
NCU07095	10699 VI	A
14260 NCU07095	10700 VI	a
19865 NCU00590	10701 I	A
19864 NCU00590	10702 I	a

S.G. egly made 9/20/11

These single ascospore-isolate progeny are now on their way to you on 1 ml Vogel's slants supplemented with 150 µg/ml hygromycin via FedEx package 8747 9616 4544. We are continuing to clean-up strains!

Sincerely,

Matt

Matthew S. Sachs, Ph.D.
