USDA Statement

Uppsala, Sweden, Oct 4- 2011

Attention: USDA Port Inspector

In accordance with USDA Guidelines 1116, Guidelines for Importation of Non-Pathogenic Microorganisms (and their extracts), this is a declaration stating the contents of the enclosed package.

1. This package contains cultures from the model fungus *Neurospora tetrasperma*
2. The enclosed material is for *in vitro* use only.
3. The material is not a zoonotic pathogen.
4. The material is not derived from livestock or avian species.
5. The material has not been exposed to livestock or avian disease agents exotic to the United States.
6. The material does not express antigens or contain genes of livestock or avian disease agents or do not produce monoclonal antibodies directed against livestock or avian disease agents.
7. The material is not pathogenic for livestock or avian species.
8. The material does not contain any animal derived additives
9. The material is non-toxic

This package is being shipped from:

Dr. Hanna Johannesson
Uppsala University, Department of Evolutionary Biology
Norbyvagen 18D, SE-752 36 Uppsala
Sweden
Phone: +46 18 471 66 62
E-mail: hanna.johannesson@ebc.uu.se

And is intended for delivery to:

Fungal Genetic Stock Centre
School of Biological Sciences
University of Missouri, Kansas City
5007 Rockhill Road
Kansas City, Missouri 64110
Phone: (816) 235-6485
E-mail: questions@fgsc.net
